Question 16- What is the next suitable figure from bottom raw

Question 17- What is the next suitable figure from bottom raw

Question 18- What is the next suitable figure Question 19- What is the next suitable figure from bottom raw from bottom raw 继 П 20 8 3 Question 20-Answer the three questions after reading the papragraph below – circle the most correct Nowadays many environmental organizations in Sri Lanka are concerned with the level and nature of waste in our oceans and our beaches. Controlling waste is important not only because it degrades the beauty of our surroundings but also because accidentaly released waste tends to float near the surface of our oceans where it can be consumed by fish, turtles, or seabirds. In addition, poor waste control has many negative effects on humans, individuals companies or different indistrial sectors. For example, inadequate waste management at the workplace can lead to accidents involving slips, and falls which may mean lost production time, higher worker compensation costs, higher insurance premiums or lower employee morale.

- In the past, environmental organizations were not concerned with the level and nature of waste in our oceans - True / false / cannot say
 - 2. Environmental organizations control the nature and level of waste in order to protect fish, turtles and seabirds True / false / cannot say
 - 3. Poor control of waste negatively impact on day to day work and businessesTrue / false / cannot say
